braimoselimane903@gmail.com

SUMMARY

Software developer born on October 3, 2002, with over 5 years of experience in web and mobile applications. Proficient in full-stack development and cloud platforms such as AWS, Vercel, and Railway. Developed innovative projects, including an Al-powered sign language translator and an AR-based Virtual Tour Guide app, demonstrating strong expertise in IoT and emerging technologies. Committed to building efficient, user-centered solutions that address real-world challenges.

EXPERIENCE

Full-Stack Developer, 01/2024 - Current

Cornelder de Moçambique, Port of Beira - Beira, Mozambique

• Built apps with Java (Spring Boot) + Angular; optimized workflows with Python, OpenCV, YOLO for container recognition, LPR, and other projects.

Freelance Developer, 01/2018 - Current

Self-employed - Beira, Mozambique

• Delivered custom solutions for clients like Orbiplan, Infome, and Itcontroltech, managing VPS, shared hosting, and various cloud platforms.

Senior Software Developer, 01/2024 - 01/2025

Jumbatec - Remote

• Built enterprise web apps with Node.js, React, Next.js, and AWS, deploying scalable APIs and automated workflows, serving thousands of users across universities, schools, clinics, and pharmacies.

Mobile Developer, 02/2023 - 08/2023

EquipMoz - Beira, Mozambique

• Built cross-platform apps with Ionic and React Native, integrating AR features, and collaborated with 3D artists, DevOps, and designers.
